

Congratulations on your new set of Crankbrothers pedals!

Safety Guidelines

- Always use proper safety gear when mounting pedals. Check that the pedals are properly installed.
- Check the alignment of the pedals before going on a ride.
- Use a wrench to follow the side of the pedal. Tighten screws with the correct torque when riding.
- Use a wrench to adjust the pedals when riding on a road.
- Inspect the pedals regularly and replace them when they are worn out.
- Report the pedal for any damage or wear parts before using the pedals on a road.
- If you have any questions about using your new pedals, please contact our customer support team at info@crankbrothers.com.
