Snap on storage container for the included tire plugs.

The Snap on storage container also features 2 quick link slots. Quick links are not included.

PLUG TOOL INSTRUCTIONS

**1.** Insert the fork tool into the tire and rotate to prepare the hole for sealing.

**2.** Place a tire plug into the fork tool.

**3.** Push the fork tool and tire plug into the puncture so it is about halfway inserted.

**4.** Hold the tire plug while you remove the fork tool.
