- Instructions (1)

**Fits:** Universal 12VDC negative ground systems.

### Installation:

1. Remove all necessary parts to disconnect the negative battery cable from the battery.
2. Mount the supplied Off Road Bracket using supplied 3/8"-16 x 1.5" Hex Head Bolt, Washer and Serrated Flange Nut and two 1/4"-20 x 1.5" Bolts, Washers and Serrated Flange Nuts to the desired location such as light bar or brush guards, etc. Shown in **Figure 1**.

3. Install Shark Demon® 2 LED Off Road Light to the Off Road Bracket using supplied 6mm Hex Head Bolts and Washers. Shown in **Figure 2 on Page 2**.

Please read all Information below before Installation

**Warning:** Disconnect negative battery cable from battery; refer to owner's manual. Failure to do so may result in electrical shock, injury, or fire. Secure negative battery cable away from positive side of battery and all other positive voltage sources on vehicle.

**Safety First:** Always wear appropriate safety gear including safety glasses when performing any electrical work. It is highly recommended that safety glasses be worn throughout this installation process. Be sure vehicle is on level surface, secure and cool.

**Note:** Complies with SAE and DOT standards for high and low beam motorcycle headlamp. (SD2-OR-W only).

**Cleaning:** Take special care in cleaning the finish. Never use abrasive polishes or cleaners as these can scratch the finish.
