Figure 1

INSTALLATION INSTRUCTIONS:

1. Pre-assemble blade mount and attach brackets using the four carriage bolts making sure that the three indents are on the same side. Shown in [Figure 2](#).
2. Place two U-Bolts (A) around the back frame tubing on the ATV and attach the mount to the rear two U-Bolts (A) loosely shown in [Figure 3](#).
3. Pull the front of the mount up to the frame and attach to the frame tubing above using the remaining two U-Bolts (B) shown in [Figure 3](#).
4. Tighten all U-Bolts down evenly.
