

## FLARE™ WINDSHIELD FOR FXRP

**EMAIL:**  
info@getklocked.com

**CALL:**  
(605) 996-3700

1. Loosen all seven windshield fasteners and carefully remove your windshield from the fairing
2. Inspect the well-nuts in the fairing. If any are broken or pulled through, Klock Werks offers an upgraded replacement kit (part number 2404-0548) for \$29.95.
3. Install your new Flare windshield with the hardware removed in step 1 and torque to specification

Stock well-nuts are prone to failing after a few uses. If any of your well-nuts are broken, Klock Werks Flare™ Nuts have been designed to be used over and over again. For more information, see back page.

Klock Werks cannot be held responsible for any damage resulting from improper installation performed by any consumer or their dealer.

QUALITY, PERFORMANCE & COMFORT.

## FLARE™ NUTS FOR 98-13 FLTR AND FXRP

Factory well-nuts are prone to failure after a few uses. Klock Werks Flare™ Nuts are manufactured out of a superior material and have a revolutionary design, including a metal washer molded into the flange to prevent the well-nut from pushing through the windshield mounting hole and ending up inside your fairing. In addition, we've added a superior brass threaded insert that tightens the well-nut, but allows for continuous installation and removal.

- // The best replacement well-nut for your bike!
- // Shoulder molded on to brass insert to prevent pull through
- // Metal washer molded into flange to prevent well-nut from pushing through fairing

## KLOCK WERKS CLEANING PRODUCTS

We tested many products, and found a company that would combine what we like and remove what we didn't like to create a complete Kleaning product line-up.

- // The recommended cleaner for your Flare™ Windshield
- // Proprietary concoction designed by REAL riders
- // Protects surfaces while repelling dirt
- // Complete line for all finishes
- // Clean, Shine, and protect - just about anything.
