

# INSTALLATION INSTRUCTIONS

Part Number YA-1006

**This filter fits:** SEE CATALOG FOR CURRENT APPLICATIONS

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N Air Filter seals properly.

## INSTALLATION

1. Remove the stock air filter.
2. Carefully clean the air filter sealing surface in the air box. (Fig. 1)
3. Install the K&N Air Filter.

**Note: Make sure the groove on the K&N Air Filter is facing down in the air box otherwise it will not seal correctly and damage to the engine can occur. (Fig. 2)**

4. Install the provided support plate onto the K&N Air Filter with the stamped TOP facing up. (Fig. 3)
5. Re-install the stock screws into the air box lid and tighten.

**Note: Be sure to install the center screw on the air box lid. (Fig. 4) this holds the air filter in place.**

**THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.**
