**STRICTLY OBSERVE THE FOLLOWING GUIDELINES IN ORDER TO USE THE PRODUCT PROPERLY AND AVOID POTENTIALLY DANGEROUS ACCIDENTS.**

- STEP 1** Read and understand all steps in the instructions before starting the installation. Park the motorcycle on a hard, level surface and turn off the ignition.
- STEP 2** With a Phillips or standard screwdriver, remove the screws and original lenses from the Mini Bullet Lights.
- STEP 3** Remove the screws from the new amber lens and bezel assemblies.
- STEP 4** Choose the preferred lens color. Remember, the color of the lens does not change the color of light emitted. If the L.E.D.s illuminate amber, changing to red lenses will have no effect.
- STEP 5** Slip the selected lens and bezel assembly into place on the light body and align the screw hole in the bezel with the slot in the lens and the hole in the body. Install the screw and tighten with a hex wrench. Repeat this procedure on the other Mini Bullet.

**ATTENTION!** It is the installer's responsibility to ensure that all of the fasteners (including pre-assembled) are tightened before operation of the motorcycle. Kuryakyn will not issue a warranty on components lost due to improper installation. Periodic maintenance may be required.
