Part Number: LLC-KTP-C01, KTP-B01, KTP-C02 & KTP-B02

(LLC-KTP-C01 shown)

Fitment: Chrome King or Classic Tour Pack Replacement LED Kit, Fits 1997-2008 King/Classic OEM Tour Packs. (Aftermarket tour packs require additional wiring and custom installation.)

This product is intended: Our King or Classic Tour Packs are intended to be a direct fit, plu-n-play replacement for the OEM incandescent bulb version that came from the factory. An awesome upgrade from stock, these LED's really add a ton of additional light to your tour pack! If you have an OEM or aftermarket tour pack without lights, these LED's will require some cutting and an additional wiring purchase for proper installation.

What is included in this kit?
• (1) Chrome or Black tour pack LED kit, '97-'08
• **or** (1) Chrome or Black tour pack LED kit, '09-'13
• OEM style pigtail for easy installation

Recommended Tools:
• #2 Phillips Screwdriver
• Needlenose pliers
• Wire strippers
• Universal crimp tool

WARNING!

This product should be installed by a professional motorcycle technician or reputable shop/ dealership.
Improper installation may result in loss of tour pack lighting functions.

1. Chrome or Black King or Classic Tour Pack Replacement LED Kit, Fits 1997-2008 King/Classic OEM Tour Pack & Chrome or Black King or Classic Tour Pack Replacement LED Kit, Fits 2009-2013 King/Classic OEM Tour Pack.
2. Remove existing tour pack lighting or for new aftermarket tour packs, use our template & drill holes accordingly.
3. These tour pack lights come pre-wired but allow you to connection options, an OEM pigtail is also included, BLUE wire = running light, BLACK wire = ground & RED/YEL = is for brake light functions. (Use butt-splices)
4. For aftermarket tour packs, use NAMZ quick-disconnect harness part #'s, NTPH01,NTP-H02, or NTP-H03. Our harnesses allow for easy removal without removing the seat.
5. If you want to add running light, brake light and turn signal functions, use NAMZ part #'s NTP-HR01, NTP-HR02, or NTP-HR03. These harnesses come with a pre-wired Badlands module with built in load equalizer and allow for a quick disconnect, easy removal.
6. Once installed, turn on the ignition and test accordingly.
