

## Pedro's Grease: Data Sheet

A premium, all-purpose, NLGI #2, extreme pressure, lithium complex bicycle grease. Pedro's Grease is excellent for bearing applications, assembly tasks, threads, and component interfaces. Formulated to have an excellent dropping point, superior water resistance, and outstanding structural stability over a wide range of temperatures, Pedro's Grease is the grease of choice for those that demand the best.

### Typical Properties

NLGI Grade	ASTM D 217	#2
Color		White/Tan
Application temperature °C		-30 to 140
Penetration at 25°C after 60 strokes	ISO 2137	295
Dropping Point, °C min.	NFT 60102	270
Viscosity of base oil at 40°C (cSt)	ASTM D-445 210	210
4 Ball weld load N	DIN 51350:4	3000

Revision: 8 June 2021
