General specifications:

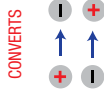

5A max.  
-40°C/°F

TecMate  
chargers  
with TM  
connector

TM (KET) connectors were phased out on all OptiMate models during 2012, replaced by the SAE compatible connection system. The 07 and 017 adapters guarantee compatibility between TM and connection systems.

Accessories are equipped with an innovative heavy duty connector that is rated at 15A and is SAE compatible. The removable end cap and in-line rubber sealing shrouds provides weather and dirt proof operation.

Connector polarity:

Positive pin open

Devices that charge or draw power from the battery.

Cables that convert to or from a different connection system.

06 08 017 018

Negative pin open

Cables that connect directly to the battery or a 12V outlet on the vehicle.
