

Bicycle set 1, 14 pieces

Zyklop Mini 1

EAN:	4013288207623	Size:	135x95x40 mm
Part number:	05004170001	Weight:	260 g
Article number:	Bicycle Set 1	Country of origin:	CZ
		Customs tariff number:	82079030

- Compact 14-piece screwdriving tool set for bicycle applications, also for mobile use
- Practical range for DIY assembly work and repairs
- Suitable tools for the most common bolt profiles on road bikes, mountain bikes and e-bikes
- Robust, surface-friendly, compact textile folding bag
- Set including Mini bit ratchet, extension and two tyre jacks with additional functions

Bicycle repair shops and passionate cyclists love screwdriving on a bicycle. With their Bicycle Set 1, the screwdriving tool specialist Wera offers an assortment of tools that is very mobile thanks to its compact and design-oriented textile folding bag, and offers solutions for the most common screwdriving situations when working with bicycles. The sturdy bag contains the bit ratchet Zyklop Mini 1 and 10 bits with all the benefits of Wera-Bit technology, specially adapted to the most common screw connections on a bicycle. With the glass fibre reinforced plastic tyre jacks, the tyres can be safely levered off the rim without damaging the rim.

The tool set to go

The bicycle set 13 contains tools for the most popular screw profiles on road bikes, mountain bikes and e-bikes. Thanks to the compact textile folding bag, the set is also the ideal companion on bike tours.

Rapid screwdriving

High working speeds can be attained with the Zyklop Mini 1. The thumb wheel is important, enabling more rapid screwdriving, and the Zyklop Mini handle only needs to be used for the final tightening of the screw.

Small return angle

The fine tooth mechanism, with its 60 teeth, allows a small return angle of only 6° - ideal for precision work.

Simple direction change

Simple switching between left/right operations.

Slim design

Its slim design makes it ideal for all particularly confined working situations.

Lever tyre off the rim safely

With the glass fibre reinforced plastic tyre jacks, the tyres can be safely levered off the rim without damaging the rim. Lift off of the rim with one tyre jack, hook into a spoke and pull off the tyre with the second tyre jack. The two tyre jacks can be clicked together and are therefore not lost individually.

The 9502 tyre jack with bit mounting

The 1/4" hexagon mounting in the 9502 tyre jack allows mounting of a 1/4" bit. In this way, light screw connections can be conducted.
