- Bit sockets for the most common TORX® and Hex screws
- Long bit sockets with extra slim, cylindrical profile zone for low-located couplings (e.g. for bottom bracket ball bearing or stem-fork-clamping)
- With extra slim 30mm long profile area
- With Take it easy tool finder: colour coding by size
- Knurling on lower socket end for more grip when used manually

7-piece bit socket set with 3/8" drive for typical bicycle operations. Bit sockets with 30mm long and extra slim profile area for better accessibility in tight workspaces. The knurling facilitates manual screwdriving without slipping. With Take it easy tool finder with colour coding by size - to help you find the required tool quickly and easily.
