

Wolfman Enduro Dry & Enduro Ultra-Lite Duffel Mounting Instructions.

Mounting to our Enduro Dry, Ultra-Lite, E-12, and Day Tripper Saddle Bags.

-This bag includes the following: 1-Waterproof Liner, 1-Reflective Shoulder Strap, 2-Soft Loop Mounting Straps

-The Rear of the bag has the Wolfman logo and the 1" Reflective Webbing.

-Roll the liner and top down 3-4 times for maximum seal.

-Use center and side compression straps sewn on duffle to snug the load.

****The Enduro Dry, Enduro Ultra-Lite, E-12, and Day Tripper Saddle Bags all utilize the same mounting system, thus mounting to the Enduro Dry/Ultra-Lite Duffel is the same.**

Mounting to Saddle Bags:

The Mounting Straps attach to the 2" D-Rings located on bike side of the Saddle Bags.

1-Unclip buckles of the mounting straps, as the straps mount individually. Thread the loop end of the mounting strap through the 2" D-Ring on the Saddle Bag. Fig.2

2-Pass the buckle and webbing through the loop. Fig.3

3-Pull the mounting strap tight to the 2" D-Rings.

4-Repete steps 2&3 for the remaining mounting straps.

5-Correctly Mounted Enduro Dry/Ultra-Lite Duffel. For maximum security thread the mounting straps through the webbing slots at the front and rear of the Duffel. Fig.4
